

FINANCE & BILLING

Quick Invoice Software

Create professional GST invoices in 3 clicks and dispatch them via WhatsApp.

Executive Summary: Perfect for freelancers, consultants, and service providers who need a quick and easy tool to bill their clients. Create professional invoices in seconds, customize design themes, send direct payment links, and set automatic reminders for overdue balances. Manage your sales pipelines with maximum speed.

CORE KEY CAPABILITIES

- ✓ **3-Click Generation**
Select client, item list, click print/save - and your professional invoice is ready.
- ✓ **WhatsApp & Email Share**
Instantly send PDF copies of invoices directly to clients via automated messages.
- ✓ **Auto Payment Alarms**
Schedule automatic reminders to prompt clients when invoices approach due dates.
- ✓ **Multi-Currency Billing**
Support international clients with custom tax templates and global currencies.

ARCHITECTURE MODULES

Invoice Builder Panel

An interface to draft estimates, record tax percentages, add discounts, and format notes.

Client Directory Hub

Save client billing addresses, email records, and track outstanding ledger statements.

Payment Gate Integrator

Embeds custom online payment links (UPI, Cards) directly on the customer's PDF invoice.
