

EDUCATION ERP

School Management System

Manage admissions, attendance, parent communications, and student progress in one portal.

Executive Summary: Our comprehensive School ERP system serves as a digital nervous system for schools and colleges. Centralize academic schedules, track daily attendance, customize grading metrics, send instant homework updates to parent portals, and handle registrations with a secure cloud dashboard designed for ultimate control.

CORE KEY CAPABILITIES

- ✓ **Student/Staff Records**
Centralize digital portfolios, admission histories, and contact info.
- ✓ **Timetable & Schedules**
Design clash-free class routines and assign teachers dynamically.
- ✓ **Parent-Teacher Portals**
Allow parents to view attendance logs, teacher notes, and exam schedules.
- ✓ **Report Card Builder**
Instantly calculate grades, print custom progress cards, and log rankings.

ARCHITECTURE MODULES

Academic Administrator Hub

Core office interface to manage registrations, configure grading formats, and update directories.

Teacher Portal App

Teacher dashboard to record daily attendance, upload homework documents, and submit test scores.

Parent-Student Dashboard

Secure web portal where guardians monitor academic charts, review schedules, and chat with teachers.
